Enhancement to the UQ Images Lightbox

Following a recent upgrade to UQ Images, users now have a more dynamic view of their Lightbox.

Click on ‘Expand view’ on the Lightbox panel in the left-hand column.

This will display the contents of your currently selected lightbox in a strip along the bottom of your browser window.

This remains visible as you navigate the site, enabling you to see the images in your lightbox as you add them, and allowing you to remove them as you go.
Hovering your mouse over any of the images will display a larger image together with its metadata.

You can display any of your lightboxes from this panel.
From this view, you can also see the normal expanded view of the contents of your lightbox, by clicking on “View contents”:

To remove this display of your lightbox, click on ‘Collapse view’:
