

Mobile Phone recycling

Recycle your old mobile phones, batteries and accessories and reduce the amount of toxic components going to landfill.

- All brands of mobile phones are accepted.
- Send them in the internal mail to:
Property and Facilities Mailroom
The University of Queensland - St Lucia campus
- Property and Facilities sends the items to a company that recycles the items to ensure that the potentially toxic components in mobile phones, their batteries and accessories are recycled rather than ending up in landfill.
