

2024 Dual Degree Study Planner

Master of Occupational Hygiene / Master of Occupational Health and Safety

If you are unable to access the information in this study plan, please email enquire@science.uq.edu.au for assistance.

Important Information

It is your responsibility to ensure that you complete all the requirements for each component of this dual program in order to graduate with both degrees. The following information is designed to help you plan your enrolment to meet this goal.

The Program Requirements, available on [UQ's Programs and Courses](#) website, outline the requirements to complete the dual program.

Program Guidelines

Master of Occupational Hygiene component:

- 16 units for all MOH Core Courses

Master of Occupational Health and Safety Science component:

- 16 units for all MOHSSc Core Courses

Exiting Early

Students exiting early with one component of a dual degree must complete the single degree requirements of that component. Students will then be required to follow the single degree rules to complete the remaining component from that dual degree.

Global Experience

If you are planning on completing an overseas exchange, you may have to amend this plan. Students who would like an exchange experience in their program are encouraged to seek advice early in their program and be aware of the exchange deadlines: <https://employability.uq.edu.au/global-experiences>.

Require Further Assistance?

If you require assistance planning your program or have concerns about meeting program requirements, please contact the relevant Faculty for advice:
